

CONTINUING THE

legacy

Here at Kirsch, we are a team of innovators, designers and engineers. But most of all, we are leaders. A team of forward thinkers who keep the principles of tradition that have been handed down to us close in our hearts. We follow in the courageous footsteps of those before us as we fearlessly head into the future to bring you new technologies that keep your home running efficiently. We inspire timeless fashion trends so you have the beautiful, lasting style of tradition. Because here at Kirsch, the tradition of innovation lives on.

ESTATE™

Size Matters

When it comes to designing, every little detail is important. That’s why you’ll find our Estate™ Rod collection offers functionality in the most beautiful form and now in a smaller size. Our Wood Trends™ features a 1⅜” Estate™ rod for those who require a more delicate style opposed to our classic 2” rod.

BRIZA™ MOTORIZATION

Feel the Power

Control your draperies in an instant from anywhere in your home with our new Briza™ Motorization. Enjoy the ease and comfort of motorized draperies on our most popular rods. Our quiet yet powerful motor moves on command and whisks your draperies in an instant so you can experience comfortable living at its finest.

K - RAIL

Versatility at Last

The Kirsch® K-Rail is a great example of functional design. The rounded face of the profile provides a decorative alternative to our Architrac® Collection. K-Rail offers a basic color palette so you can color coordinate any of our 1¾” finials from any of our collections. Now you can finally bring your project to another level of customization.

BASIC

Adjustable Versatility

Exceptional quality is crucial when creating a room scene that stands out. Our basic systems stay behind the scenes and delivers beauty that endures the test of time. Anything but basic, our variety of rods allows you to customize your treatment. It's no wonder our Basic collection is considered so essential.
